Second Chance Community Veterinary Hospital & Bay Path Veterinary Educational Center at Second Chance

Your opportunity to change the future of animal welfare

Second Chance Animal Services invites you to play a role in the future of animal welfare as we announce the creation of the new Community Veterinary Hospital and Bay Path Veterinary Educational Center at Second Chance to be located in Southbridge, MA.

This hospital will not only provide year-round access to care for pets in an underserved community but will be home to the Second Chance's first educational hospital in collaboration with Bay Path Regional Vocational/Technical High School. *This is truly a one of a kind opportunity to impact change for pets in Massachusetts and beyond.*

This educational hospital will be our largest project to date. We have already raised \$600,000 of the projected \$1,000,000 cost from two generous donors who recognize the importance of access to veterinary care and education. We are asking you to join us in this important mission. Any support is greatly appreciated and will help change lives.

With this new location, we can help more pets than ever before. You can choose to sponsor a hospital room, knowing that many pet's lives will be saved in that very room. Sponsor an educational room and know your legacy will live on through the careers of students dedicated to helping pets.

The Southbridge complex will also include a community room to expand our educational outreach and training programs, facilitate continuing education for area veterinary and animal welfare professionals, and to foster volunteerism.

All room sponsorships will include recognition in the room and on the major sponsor display planned for the hospital entryway. Sponsors will also receive recognition when the room is referenced in print materials, media or website.
