

Second Chance New Community Veterinary Hospital in Worcester, MA

"The best way to predict the future is to create it."
~ Abraham Lincoln

Second Chance Animal Services invites you to help shape the future of animal welfare with the launch of a new and bigger **Community Veterinary Hospital in Worcester, Massachusetts.**

By expanding capacity, this hospital will enhance year-round access to veterinary care for pets in an underserved community, extending critical services to more families who rely on them.

We invite you to join us in this important mission. Your support—at any level—will help save lives and strengthen our community.

With this new facility, Second Chance will be able to help more pets than ever before. Supporters can choose to sponsor a hospital room, knowing that countless pets' lives will be saved in that very space.

All room sponsors will receive recognition within the sponsored room and on a major sponsor display in the hospital's entryway. Sponsors will also be acknowledged whenever the room is referenced in print materials, media coverage, or on the Second Chance website.

"With the continuing rise in demand for our services, we need a larger facility to meet the needs of pets and families in our community," said Sheryl Blancato, CEO of Second Chance Animal Services. **"We work to keep pets in their homes whenever possible, and access to care is critical to making that happen.** A larger facility means more veterinarians, more appointments, more surgeries, and more support to our community."
